

Nominee, Commercial Vice President  
Roy Halterman, Account Executive, Intrado

With sincere humility, I have accepted the nomination to serve as Commercial V.P. on your CalNena Executive Board of Directors.

We've come a long way during the past several years. World events have brought us all significant challenges! Issues of National security, our State's budget woes, political pressures, legislative issues, the rapidly changing technology evolution, and several other items have increased the critical role that CalNena serves.

I've accepted this nomination with a desire to serve in this volunteer role as your voice on the Board and to therefore strengthen the representation of your vision for 9-1-1 in California. I continue to serve in the 9-1-1 arena through my work at Intrado and have had the great opportunity to work with many of your center's needs.

Thank you in advance for your consideration in providing me this privilege and your vote during this current election period.
